

**Lecturer ...Dr. Husam Muslih
Abdullah.....**

Department of ...Civil engineering

.....

lecturer of Roads and Airports Engineering

Email: husam.alfaris@gmail.com ...

Education:

PhD, University ofTechnology....., Year 2003

MSc, University of Strathclyde, Glasgow, Year 1983

BSc, University of Technology, Year 1976

Profile:

Assistant Dean & Assistant Lecturer, Institute of Technology, Baghdad

Lecturer, University of Technology, Baghdad

Technical Researcher, Arab Union of Technical Education, Baghdad

Lecturer, Baghdad College of Economics.

Lecturer, Alfarabi college for more than 6 years.

Teaching

- 1- Transportation Engineering, which includes (functional classification of roads, elements of highway engineering design / structural design of both types of flexible and rigid pavements, asphalt materials and design of mixes).**
- 2- Engineering statistics, including (frequency distributions, measures of central tendency, measures of dispersion, probabilities, and probability distributions).**
- 3- Mathematics, including (numbers and their types / functions / limits / derivatives and integrals)**

Research Focus

- 1- Behavior of road users (pedestrians and motorists).**
- 2- The speeds of vehicles in Baghdad.**
- 3- Modern designs for intersections.**

Publications

Comparative study of traffic flow models
