

# **Professor Walid Mohamed Salih Kassim**

**Department of Oil and gas refinery engineering**

**Professor of chemical engineering and Head of Department.**

**Email:** walidkassim@yahoo.com

## **Education:**

PhD, University of, Aston /Birmingham Year 1972

MSc, University of Aston /Birmingham , Year 1972

BSc, University of Wales / swansea, Year 1965

## **Profile:**

Assistant lecturer / chemical Engineering Dept. /college of engineering / Baghdad University (1969-1972).

Lecturer / chemical Engineering Dept/ college of engineering / / Baghdad University (1972-1976).

Assistant professor / chemical Engineering Dept /college of Engineering / Baghdad university (1976-1990).

Professor /chemical Eng. Dept.) Baghdad university (1990-2011).

## **Teaching**

Process control and instrumentation.

Chemical Engineering mathematics .

Mass transfer

Design of industrial projects.

## **Research Focus**

Fluidized bed reactor .

Environmental pollution.

Cello use uses in paper manufacture.

## **Publication**

Influence of clay lens on migration of light no aqueous phase in unsaturated zone . J.of Environmental Engineering ,vol.137 No1,Jan 2011.

Risk assessment and remediation suggestion of impacted soil by produced water associated with oil production . J. Env. monit. Asses. (2008)145.

## **Affiliations/Activities**

Editor – I J of chemical , Engineering and petroleum.
