

Professor Emeritus Abdulwahid B. Abdulridhal Al-Shaibani

Department of biology

Professor of microbiology

Email: abdulbaqir943@alfarabiuc.edu.iq

Education:

PhD, University of Kansas state uni. , Year 1977

MSc, University of Kansas state uni. Year1973

BSc, University of Baghdad uni. , Year 1965

Profile

- **Lab. Assistant in Baghdad uni. 1965.**
- **Assist. Prof. in Baghdad uni. 1977-1987**
- **Assist. Prof and prof. in Al Mustansryah uni. 1987- 2002**
- **Prof. in AL Nahrahrain uni. 2002- 2013**
- **Prof in Al -farabi uni. Collage 2014 – until now**

Teaching

- **Food microbiology: (the science deals with studying microorganisms in related to foods from the standpoint of food spoilage, food poisoning, infection and using in food product.**
- **Biotech.: Is the science deals with the technology of using microorganisms, plant and animals in industry.**
- **Graduation project.**

Research Focus

Pathogenic microorganisms

Probiotic

Industrial microbiology

Publications

- **About 85 published and accepted paperies**
- **2 patents**
- **Three scientific books**

Affiliations/Activities

- **Editing manager of AL mustansyria journal science for 12 years.**
- **Manager of advisory bureau of collage of science AL- Mustansyria uni.**
- **Member of American society of microbiology (ASM).**
- **Member of Iraqi society of microbiology.**
- **First faculty member of Al- Mustansyria uni \ collage of science in 1997.**
- **First faculty member of Al- Nahrian uni. \ collage of science in 2002.**
- **Member of Iraqi advisory committee for microbiological limits of foods.**
