

Assist. Lecturer Ammar Jawad Kadhim

Department of Biology

Assist. Lecturer of microbiology

Email: ammarjkadhim@alfarabiuc.edu.iq

Education:

MSc, University of Baghdad, Year 2021

BSc, University of Baghdad, Year 2016

Profile:

I am obtained my Bachelor's degree from the Department of Life Biology at the University of Baghdad in 2016 and in the same year worked as a teaching assistant at Al-Farabi University College.

In 2021, I also obtained a master's degree in microbiology from the Department of Biology at the University of Baghdad and was awarded the title of assistant lecturer by Al-Farabi University College.

I was assigned to several committees within the department of Biology at Al-Farabi University College.

Teaching

Practical pathogenic bacteria (It deals with the topics and types of bacteria that infect humans and cause different diseases in different areas of the body and introduce them and methods of detection and diagnosis of these types of bacteria)

Practical antibiotics (It deals with different topics about antibiotics, sterilizers and disinfectants used in our daily life, how to use them and their effectiveness on the different types of microorganisms that cause harm in the various details of our daily life, and knowing the types used for the purpose of sterilization, killing or inhibiting different pathogens.

Research Focus

Find an alternative therapy for the used antibiotics that become less effective because of the bacterial resistant.

Knowing the effect of antibiotics on different types of bacteria.
