

# **Assist. Lecturer :Noor salah halab**

**Department of Biology**

**Email: [noor.saleh@alfarabiuc.edu.iq](mailto:noor.saleh@alfarabiuc.edu.iq)**

## **Education:**

**MSc, University of Baghdad ,Year: 2014**

**BSc, University of Baghdad, Year:2010**

**General specialty: Zoology**

**Specialization: animal physiology**

## **Profile:**

**Graduated from the College of Science, University of Baghdad in 2010 and worked in the field of medical laboratories for 10 years with distinguished experience in teaching and developing students and graduates to practice the profession and work on various medical devices and laboratory analyzes, and joined as a teacher at Al-Farabi University College in 2015**

## **Teaching**

**1-Cell biology : study of cell structure and function, and it revolves around the concept that the cell is the fundamental unit of life. Focusing on the cell permits a detailed understanding of the tissues and organisms that cells compose**

**2-Animal physiology: study of the life-supporting properties, functions and processes of animals or their parts. The discipline covers key homeostatic processes, such as the regulation of temperature, blood flow and hormones**
