

**Assist. Lecturer Abeer Mahdi Jabbar**

**Department of medical optics techniques**

**Email:** abeer.mahdi@alfarabiuc.edu.iq

### **Education:**

**PhD student, University of Al- Nahrain**

**MSc, University of Al- Muthanna, Year 2015**

**BSc, University of Al- Muthanna, Year 202**

### **Profile:**

Lecture in Al- Muthanna university in science , pure education and dentistry college

Laboratory Officer in science college Al- Muthanna university

### **Teaching**

1. Biology in first stage include study of all things that related with human such as disease, microbiology ( bacteria, viruses and others).
2. Professional conduct in second stage include professional ethics specially medical ethics
3. Biostatistics in second stage include analyzed, interpreting and drawing of data

### **Research Focus**

1. Medical Microbiology
2. Molecular Biology
3. Molecular Docking
4. Enzymology
5. Cytogenetic
6. Cell Line (Cancer And Normal)
7. Production Of Medical Product From Medical Plants

### **Publications**

1. Isolation and Molecular Detection of Helicobacter Pylori from Biopsy Samples of Gastritis Patients in Iraq.
2. Induction of Apoptosis in Lung Cancer Cell by RGD- Conjugated Gold Nanoparticles.

## **Affiliations/Activities**

**Patent: Development of a system for documenting gel images (2021/1/20)**
