Program vision .1

The Department of Law should be one of the most distinguished and solid academic departments among the law departments in the country's similar law colleges, through its legal and academic activities and its commitment to the laws and regulations governing this activity, which will be positively reflected in the outputs of this department's students.

Program message .2

- 1** Spreading legal awareness in society through conferences, seminars and lectures. Attach it to the applicable laws. or Proposing legal development ideas for existing laws to serve the development of Iraq and enhance its position.
2. Taking the initiative to have some students give lectures to some high school students to explain some laws that are important to them and to society, including the environmental law and the traffic law, or Any other law.
3. Establishing a legal library that includes numerous legal publications and journals for the benefit of college students and other researchers.
4. Issuing a quarterly legal journal that includes legal research prepared by the department's professors in various branches of law.

Program accreditation .4	
1. The Department of Law aims to prepare competent graduates to fill administrative and legal positions in all government departments and the private sector.	Nothing
2. Preparing graduate students to practice the legal profession efficiently and assume judicial duties.	
3. Cooperating with various Iraqi courts to allow students to attend training in courtrooms to enhance their practical legal culture.	
4. Commitment to the curricula prescribed by the corresponding law colleges and developing them whenever necessary.	
5. Graduating a legal generation qualified to work in all state legislative, judicial and executive institutions.	

Other external influences .5

Professional development
Orientation of new faculty members
The college is responsible for guiding new faculty members or lecturers on how to deal with students through lecture management, student understanding, and the use of modern methods to deliver legal information to students and encourage them to be creative in both practical and theoretical aspects.
Professional development for faculty members
The Deanship of the College urges the teaching staff to move towards academic and professional development in the educational process by developing the teaching staff through

participation in workshops and training seminars that develop their capabilities and exposure to the best modern teaching methods, as well as stating learning outcomes and evaluating the results for students that enable them to know their final scientific outcomes, which may contribute to motivating them to develop their academic capabilities and achieve high results.

Acceptance criteria .12

Students are accepted into the Law Department from among the graduates of preparatory studies in both its branches (scientific and literary). The admission rate in the department is determined by the Ministry of Higher Education and Scientific Research. Annually According to the central admission system.
